

# CART PLACEMENT GUIDELINES

## Cart Placement

- Arrows on the lid should point toward the roadway.
- Cart must be three feet from other objects or obstructions such as mailboxes, trees, streetlights or parked cars.
- Place your carts at the end of your driveway to prevent conflict with parked cars.
- If no driveway fronts the roadway then place behind the gravel shoulder.
- Place carts on as level of a surface as possible and away from overhanging tree branches.
- The cart lid should be closed and not be overflowing. Items outside the cart will not be collected.
- Carts can be put on the roadside at 3 p.m. the day prior and must be removed by 11 a.m. the day after collection.
- Carts should be placed at the roadside by no later than 5 a.m. on collection day.

## Common Reasons for Missed Collection

- Cart placement is not in accordance to the above guidelines
- Cart is placed out at the roadside after the designated collection time
- Trash has been placed outside the cart or is overfilled
- Cart contains unacceptable materials
- Cart has been placed atop a snow bank

## Winter Cart Placement Tips

- Keep a spot clear at the roadside for your carts
- Clearing snow after each snowfall will make it easier to move your cart to its collection point
- Carts should not be set on snow banks
- Do not place your carts in the roadway as carts can get hit by vehicles or snow plows
