

Employment Application

Request for Confidentiality

PLEASE NOTE: Under Wisconsin State Statutes, the identity of applicants must be revealed unless the applicant submits a request for confidentiality. If you desire that your employment application and all related references and documents remain confidential to the extent allowed by Wisconsin Statutes, you must provide a written request for confidentiality to the Village of Kronenwetter. If no written request for confidentiality is received from an applicant, the applicant's name must be disclosed if the Village of Kronenwetter receives a request for the applicant names.

Wisconsin Statutes require that, if a request is received for the names of the *finalists* considered for employment, the Village of Kronenwetter must provide the names to those requesting such information. Confidentiality cannot be guaranteed for applicants who reach the finalist stage.

OPTIONAL: I request that my employment application and all related references and documents remain confidential to the extent allowed by Wisconsin Statutes since they would tend to reveal my identity. I understand that confidentiality cannot be guaranteed if I am requested and agree to become a finalist for the position.
